Deadline 30th October

Date 11/12/13th November

Training for
**Health Professionals
& Executives**

Health

EIT Health is supported by the EIT,
a body of the European Union

About

The fall session of SLIM project makes all this possible, thanks to the support and mentoring of some international business consultants, trainers and technical experts for health technology assessment, product/service ideation and validation, co-creation paths definition, business management and corporate communication, networking events.

Course Format

Online workshops and masterclasses.

Course modules developed with the contribution of EIT Health, University of Naples Federico II (Italy), University of Evora (Portugal), Delft University of Technology (Netherlands) and the Dutch private training company 'The Success Detectives'. Participation to an international entrepreneurial network.

Nadia Di Paola - ndipaola@unina.it

Target Group

- Are you ready to take the next step towards your business?
- You have the technology, but do you want to make your business much more effective, improving business management and corporate communication?
- Have you ever wanted to take part into a network of local, national, and international enthusiastic entrepreneurs active in different areas of health sciences?
- Have you ever thought to take part into national and international (online) training sessions?

This course will improve your entrepreneurship attitude and intention.
More than one participant per startup/organization is suggested.

Our courses are based on the Midstream Modulation: an academically validated method designed to encourage researchers' in further developing their entrepreneurial ideas. If you are in a health, medical technology and/or biotechnology startup (<3 years), part of a group of at least 2, enthusiastic entrepreneurs (who hold a registered company), your idea passed the 'ideation' stage, got some evidence about its effectiveness, available to attend to the fall session,

We Want You!
